COMETS WIN GAME

OSWALT, IN FINE FORM, PITCHED THE LOCALS TO VICTORY.

3 AGAIN TIED FOR SECOND

Clarinda Won Yesterday, as Did Also Nebraska City—Auburn Here on Sunday.

Oh, it was sad, say, sad for Johnson. His meek and lowly slaves, the Comets, refused to serve him any longer, and stung him hard for ten safe bingles. To "Osy" belongs the praise. He certainly had his benders working, whiffing thirteen of those sturdy Oaks. And then to cinch matters he poled a three-bagger into right in the seventh, tying the score ahead of him and coming in on Sackett's triple for the first of the majority runs. The Oaks touched Oswalt seven times, but they were largely at distant intervals.

Sackett and Wintz started the bruising in the first with singles, but a neat double from Coppess to Atkins to Denison applied the brakes and stopped the show. A two-bagger by Castle and a pass for Coppess started Shenandoah on the rounds in the second, but Oswalt twisted his benders over the pan for the necessary two outs. Registering was started by the locals in the third. With two down Sackett binged to right and was advanced to third when Atkins missed Black's grounder. Shenandoah then tried her trick of Thursday's game, trying to fool the runner on third by throwing to second. It failed as before, and Sackett came in home, leaving Black safe on second. Black stole third, but failed to tally when Wintz was cut off at first.

The knot came in the fifth. McKee sent a double into left field and Denison succeeded in getting hit again. McKee was run ragged trying to reach third, and was tagged for the first out. Johnson singled and Wintz dropped Atkins' fly, stuffing the corners. Simmons grounded to Walsh, who fumbled, failing to get the man at the plate, but catching Simmons at first. Hagerty drew a pass, once more filling the passes, and Wells came to the bat. It looked bad, and a groan went up from the crowd when he hit a screaming grounder toward the second sack. Bulger was playing well down toward first and Sackett was over toward third. The hole was big, but Sackett opened his clutch, threw in on high and at the last moment stabbed the pill and shot it to first just in time to get the decision.

The seventh rolled around with the knot still holding, and Oswalt had slaughtered two, when Simmons struck the sphere into the right field ditch for the complete circuit. Oswalt chose Hagerty for the third victim and closed the gates.

And now comes the sad part. Moore stuck on first when Johnson made a wild heave to Denison. Griffin sacrificed and then Oswalt stuck the ball down by the well in center field. It was the only one which got past Hagerty. Sackett followed with a three-bagger to right and scored on Black's grounder to first. Wintz singled to right and Cook popped one up over Johnson which was allowed to hit the dirt unscathed, and the final tally was pushed over. Walsh filed to Coppess for the final.

It was one, two, three for Shenandoah in the eighth, and one, two, a base on balls, and three for the Comets.

doah in the eighth, and one, two, a base on balls, and three for the Comets.

Two clean singles right off the bat started the Oaks around in the ninth, but Johnson filed to Cook and Oswalt broke the backs of Atkins and Simmons with his twisters, and the contest was over.

SHOPPERS WILL HAVE TO BE MORE PROMPT

Shoppers will hereafter have to be more prompt in buying from the department stores in the city on account of the new 9-hour labor law for women, which went into effect last Monday. For instance, the dry goods stores will close promptly on week days at 6 o'clock, and on Saturday nights at 9 o'clock.

The Alderman dry goods store commenced Saturday working one-half of their clerks from 8 to 10 o'clock in the morning and the others from 10 to 12 o'clock. This plan will be carried out only on Saturdays. Two hours being taken off, they can work the rest of the day until 9 o'clock, making the nine hours. The other stores affected by this law will probably adopt the same plan.

The new law does not apply to employees in restaurants and hotels.

GIVES REASON FOR NOT SIGNING IT

Prosecuting Attorney Wright, in speaking about not signing the bill of exceptions in the Hez Rasco case, said that his reason for not doing it was that the statement therein relative to the applause at the close of M. E. Ford's argument was not consistent with the facts. The views of Prosecuting Attorney Wright and Judge Ellison as to the nature and extent of the applause are identical.

NICK CRIDER DEAD

PASSED AWAY SATURDAY AFTER A THREE YEARS' ILLNESS.

BORN IN SWITZERLAND

Came to Maryville Thirty-Three Years Ago—Funeral Services to Be Held Sunday.

Nicholas H. Crider, a well known old resident of this city, died at his home, on North Mulberry street, Saturday morning at 5 o'clock, after a three years' illness of tuberculosis. Mr. Crider had been confined to his home since last Christmas.

The funeral services will be held at his late home, where his daughter, Mrs. N. M. Craig, also resided, at 2:30 o'clock Sunday afternoon, conducted by Rev. L. O. Bricker of the First Christian church.

Mr. Crider was a native of Bern, Switzerland, where he was born, April 15, 1834. He was united with the Lutheran church in his native town, and throughout his life he held to the faith of that church. When a small child he came with his parents to New Philadelphia, O., where he lived ten years. In 1856 he moved to Brookline, Ia., where he lived fourteen years, and then to Atlantic, Ia., where he resided a short time. While living at Brookline he married Miss Sarah Lee, whose death occurred in Maryville, December 29, 1910. Mr. Crider and his family moved to Maryville thirty-three years ago, which has been their home ever since.

Three children were born to them, a son and two daughters. The son died in childhood. The daughters reside in Maryville and are Mrs. N. M. Craig, who lives at the old family home, on North Mulberry street, and Mrs. J. H. Schaub, living on West Seventh street. Mr. Crider worked in Maryville for many years as a painter and paper-hanger. SHORT ON LOGIC.

The Maryville Herald had the following editorial in this week's issue: The Maryville Tribune rises to remark and repeat and reiterate that this great, grand and glorious country of ours has seen some fine prosperity with protective tariff laws attached to its tail. Therefore the Tribune urges that we retain the protective system. It might have gone on and suggested that many a hearty meal has been enjoyed, with flies decorating the grub and the table—therefore let us adopt flies as the crowning glory of our fine eating, and the only real basis of a good square meal. And it also could have gone and said that Maryville has prospered wonderfully since the dogs that infest the town have become so numerous and swarmed the town streets and alleys in so insistent a way—therefore keep up the multiplying of dogs as the only true basis of any town's stable growth. The Tribune might have gone on and argued that Bill Smith or John Doe have been pickpocketed several times and since then have been very prosperous men, piling up wealth unto the astonishment of friends—therefore every man ought to have himself pickpocketed a few times so he could lay the foundations for real prosperity.

There have been many fields of good corn that have developed amid smartweeds, but the smartweeds did not produce the corn. There have been many specimens of robust manhood and robust happiness that have developed in a land of fleas, mosquitoes, cutworms, rattlesnakes and tariff taxes, but that does not argue or tend to argue that the manhood or the happiness were the product of any of these pests.

The Tribune might do well to scratch its head and let just a thought or two course through. This is a young country of unbounded resources. It can prosper under most any kind of regime. True it has had several panics during the last fifty years, all under the operation of protective tariff laws, but it has rallied soon from the effects of them, and has gone on its way all right. The simple fact that the protective system has not kept the country plunged in panic and distress all of the time, does not argue that it is a good thing or even a thing to be tolerated.

The Tribune thinks that it is conservative. The truth is it is ratty. It thinks it stands for the bulwarks. The truth of the matter is it is standing for the rotten boards of an old hull, which the American people at this time are determined to dump into the sewers. The American people have

ATTENDED BOARD MEETING TO INVESTIGATE

W. C. Pierce, a member of the board of managers of state hospital No. 2, attended a meeting of the board held in St. Joseph Friday to investigate the causes of the death of a Greek patient, who died at the state hospital No. 2 Wednesday. The coroner's jury found that natural causes brought on his death instead of bruises or injuries sustained from the attacks of the attendants, but the board of managers fired the two attendants. They are not considered, by the board, as responsible for the patient's death, but they erred in striking the Greek, even if they only slapped his face.

LONDON TO ST. LOUIS SUNDAY NIGHT

Director P. O. Landon of the Maryville Conservatory of Music will leave Sunday night for St. Louis, where, as president, he will preside over the Missouri State Music Teachers' association, which convenes in that city Tuesday morning.

The outlook at present promises a larger attendance than any state meeting in ten years.

Harry Burnell Schuler of the Trenton conservatory is secretary-treasurer of the state convention, and Mr. Quarles of St. Louis, who gave a pipe organ recital at the First M. E. church two weeks ago, is chairman of the program committee.

Mr. Edwin Kroeger and Mr. Sacks of St. Louis, both of whom have appeared in recitals in Maryville, are prominent members of the association.

ITS UP TO MISSOURIANS.

The homeseekers in our sister states know that Missouri's capitol was destroyed by lightning last February, and they are watching to see what Missourians are going to do about building a new one. Send them the news on August 1st that Missouri is a live, progressive state, keeping step with the band wagon of progress, and they will swarm over the border looking for homes. Confirm the opinion of our enemies that Missouri is a "Moss-back State" by voting down the capitol rebuilding proposition, and they'll ride through Missouri to Oklahoma, Texas and Arkansas. It's up to Missourians.

HOW TO SAVE \$3,000,000.

The taxpayer should not lose sight of the fact that the \$5,000,000 capitol proposition, carrying with it the added burden of \$1,500,000, only requires a bare majority to carry it at the November election, 1912, while the three and one-half million dollar proposition, representing a saving over the five million dollar plan of \$1,500,000 in principal and \$1,500,000 in interest, requires two-thirds majority to carry August 1. Get busy, boys, and let's save this three millions by putting the necessary two-thirds into the ballot box at the special election.

THE SHORT AND LONG HAUL.

Remember, boys, that the tax rate is just the same in the five million and three and one-half million new capitol proposition. The question is, do you prefer to pay a state capitol tax of 2 cents on the \$100 assessed valuation for a long time or a short time? If you prefer the short tax period, get into the fight to carry the smaller bond issue at the special August election. It will take two-thirds of the votes cast to do it, but we can find them.

GOLF IN THE SOUTH.

The Game Was Played in Charleston as Early as 1788.

Golf was played in Charleston as far back as 1788. In the City Gazette or Daily Advertiser of Sept. 27, 1791, appears the following notice:

"Anniversary of the South Carolina Golf club will be held at Williams coffee house on Thursday, 29th inst., when members are requested to attend at 2 o'clock precisely, that the business of the club may be transacted before dinner."

For several years following may be found calls for the anniversary meetings to be held at "the clubhouse on Charleston's green," a tract of land south of Boundary (now Calhoun) street, between the present Coming and Rutledge streets.

The fact that it was the anniversary meeting in 1791 would show that the club had been organized before that date, but unfortunately the file of newspapers in the Charleston library is not complete for some years just prior, and one finds no earlier notices of meetings or mention of the club. But in the same journal of Sept. 18, 1788, there is an advertisement of an auction sale of a farm on Charleston Neck, between three and four miles from the city, adjoining Cochran's shipyard, bounding in part on Shipyard creek, which, after describing the different items of property included in the sale, states that "there is lately erected that pleasing and genteel amusement, the golf ban." This certainly indicates that golf was one of the local amusements of that day.

The word "ban" (English-Dutch dictionary) means path, walk, way, etc., and golf, according to the Encyclopaedia Britannica, is derived from the Dutch "kolf," a club, and the game is doubtless of Dutch origin and introduced into Scotland about 1450.—Charleston News and Courier.

RIGHT ON THE JOB.

He Didn't Believe in Letting the Place Seek the Man.

A little story of success starting with the use of want ads. is contained in Business and the Bookkeeper. A Minneapolis manufacturer explains his liking for men who, even if they lack certain important qualities, have "initiative and originality."

The manufacturer, who at the time of which he spoke was just out of college, in Chicago and out of work, answered an advertisement offering a position, addressing, as instructed, "T24." He inclosed his reply in a large red envelope that could be seen and recognized at a distance. He was in the newspaper office early the following morning. In one of the boxes in which replies to advertisements were kept he saw his red envelope. He waited three hours until the letter in that box was given to a man calling for them. He followed the man to a west side factory. As the messenger laid the bunch of letters on the manager's desk the job hunter was standing by it. "I'm ready to go to work," he said. The manager's reply was not "elegant," but in addition to being exclamatory it was interrogatory. How did he manage to present himself on the scene? The young man in need of the job pointed to his red envelope. The manager looked at it and looked at him. Then he turned to the messenger. "Find out who this young fellow is and put him to work," he said.

Discretion the Better Part.

Mr. Callahan had received a long tongue lashing from Mr. Hennessey, and his friends were urging on him the wisdom of vindicating his honor with his fists.

"But he's more than me equal," said Mr. Callahan dubiously, "and look at the size of him."

"Sure an you don't want folks to be sayin' Terry Callahan is a coward?" demanded a reproachful friend. "Well, I dunno," and Mr. Callahan gazed mournfully about him. "I'd rather that to ave em sayin' day after tomorrow, 'How natural Terry looks!'"—Metropolitan Magazine.

How a Hindu Uses Clocks.

The Hindu places a clock in his showrooms not because he ever desires to know what the hour is, but because a clock is a foreign curiosity. Instead, therefore, of contending himself with one good clock he will perhaps have a dozen in one room. They are signs of his wealth, but they do not add to his comfort, for he is so indifferent to time that he measures it by the number of bamboo lengths the sun has traveled above the horizon.

Too Many Numbers.

"You have forgotten your name?" said the kind policeman. "Yes," said the victim of aphasia. "You see, I overtaxed my memory trying to remember my name and my house number and my telephone number and my automobile number and the number of my dog's license all at once."—Washington Star.

He Lost Out.

"Yes, sir, he was afraid of the banks bustin' on him, an so he buried his money!"

"Has he got it yet?"

"No; he forgot to blaze the tree where it was, an the man who owned the land put up a sign, 'No Trespassing on These Grounds.'"—Pittsburgh Dispatch.

Fight is at Close Quarters and More Than Five Hundred Fugitives Are Suffering With Dagger Wounds. Rebels Capture Big Guns.

Hodeidah, Arabia, June 24.—Rebels in great force surprised and cut up a Turkish column commanded by Mahomed Ali Pasha outside Gheesan, a town on the Red sea, about 100 miles north of Hodeidah. A thousand Turkish soldiers were killed. Mahomed Ali Pasha is missing.

The fighting was so desperate and at such close quarters that 500 Turkish fugitives are suffering from serious dagger wounds. The survivors fled in disorder to Gheesan, pursued by the rebels.

The Turkish gunboat Sutebbe, intending to shell the Arabs, shelled Gheesan instead, killing or wounding several hundred of the soldiers.

The rebels captured four big guns, two Maxim, 2,000 rifles and a quantity of ammunition and ultimately retired.

14 INDICTED IN LUMBER CASE

Conspiracy to Blacklist and Restrict Trade Charged.

WHOLESALESAERS ARE BOYCOTTED

Secretaries of Retail Dealers' Associations Indicted by Federal Grand Jury at Chicago—Put Ban on Wholesalers Who Sell Direct to Consumer.

Chicago, June 24.—The secretaries of fourteen retail lumber dealers' associations, comprising the lumber secretaries' bureau of information and representing dealers' organizations from Pennsylvania to the Pacific, were indicted by a special United States grand jury for alleged violation of the Sherman anti-trust act. Three secretaries in the organization received immunity for testifying before the grand jury.

Each indictment is in two counts. The first charges conspiracy among the retail lumber dealers to interfere with and restrain trade between manufacturers and wholesalers and the consumers. The second count charges a conspiracy to suppress and eliminate the competition that should exist between the wholesalers and the retailers and the consumers.

List of Defendants.

The indicted were: Arthur L. Holmes of Detroit, secretary Michigan Lumber Dealers' association, and editor of a trade paper, the Scout.

George P. Sweet, secretary of the Michigan association.

Willard G. Hollis of Minneapolis, secretary of the Northwestern Lumbermen's association.

Harry A. Gorsuch of Kansas City, secretary of the Southwestern Lumber association.

Bert Critchfield of Lincoln, secretary of the Nebraska Lumber Dealers' association.

E. E. Hall, also secretary Nebraska association.

Harry S. Scarce of Mooresville, secretary of the Indiana Lumber Dealers' association.

H. H. Hemenway of Denver, secretary Colorado and Wyoming association.

Louis Helkan, also secretary of the Colorado and Wyoming association.

H. H. Adams of Chillicothe, secretary of the Union Association of Lumber Dealers' and of the Ohio Association of Retail Lumber Dealers.

B. N. Hayward of Columbus, also secretary of the Ohio association.

A. L. Porter of Spokane, secretary of the Western Retail Lumbermen's association.

R. P. Bradford of Union City, Tenn., secretary of the Retail Lumber Dealers' association.

A. C. Richter of Pittsburg, secretary Lumber Dealers' association of Pennsylvania.

Three Given Immunity.

The three who received immunity for testifying were:

Paul Lachmund of Milwaukee, secretary Wisconsin association.

George W. Hotchkiss of Chicago, secretary Illinois Lumber and Builders' Supply Dealers' association and secretary of the secretaries' bureau.

George Wilson Jones, secretary of the Illinois association.

The lumber secretaries' bureau of information, it was learned by the grand jury, was incorporated in Illinois in 1905. Its membership was confined to secretaries of retail lumber dealers' associations in all parts of the country.

Aim of Conspiracy.

The aim of the alleged conspiracy, according to the indictments, was not to maintain prices nor to prevent competition between retail dealers, but to put a complete stop to the direct sale of lumber by wholesalers to consumers. Violation of the Sherman act was found, not in any trust of capital, nor anything approaching a trust, as the term has been applied in recent litigation. Instead, according to the government, it was a so called "trust of power," alleged to have been manifested in the secretaries of the retailers' organizations. That power, it is charged, was exercised by means of an alleged blacklist said to have been maintained by the secretaries' bureau. This so called blacklist, the government charges, contained the names of such wholesalers and manufacturers as violated the retailers' rule forbidding the direct sale to the consumer.

Documentary evidence examined by the grand jury showed the names of over 100 large wholesalers in various parts of the country who were said to have been on the so called blacklist.

In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.

This country is a large consumer of this costly seed because it enters into the famous catarrh remedy, Peruna, sold the world over.

THOUGHTS ON MARRIAGE.

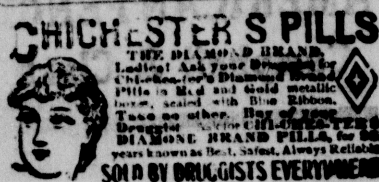

Out here, where quick divorces are served with dinner courses, a woman learns to train a man as she would have him be;
Or else she seeks the nearest court for separation and support, and marriage license coupons are attached to each decree.
Somehow there doesn't seem to be any "heart interest" in that sort of a love song. Let us turn to the pathetic poem of painful parting. Of course the setting and sentiment of most of them are wholly obsolete. The modern parting from a ladylove is frequently followed by a separation from a large lump of collateral as a balm for wounded affections. Why not recognize the matrimonial incompatibility of the high-flier and the joy rider in appropriate verse?

NEW CAPITOL CHART CLASS.

"The class in history will come forward."
"William may tell us when, where and by whom the capital of Missouri was located."
"In 1820, at Jefferson City, by the government of the United States."
"What are the express terms of the act designating Jefferson City as the capital?"
"The grant of land was given for the purpose of locating the 'permanent seat of government' at that place, and the land was sold to citizens for money to erect public buildings upon that expressed condition."
"When was the capitol building erected?"
"The main building was erected in 1837, the wings in 1857. This building was struck by lightning and burned on Sunday, February 5, 1911, and Missouri is now without a capitol, her state offices being homeless."
"What steps have been taken looking towards the rebuilding of the capitol at the permanent seat of government?"
"The 46th General Assembly submitted two propositions, namely: a plan for additional capitol grounds and rebuilding the capitol, to cost not less than 3 1/2 million dollars, and a plan calling for additional capitol grounds and rebuilding the capitol, not to exceed five million dollars—the first plan to be submitted at a special election August 1, 1911, and the second plan to be submitted, in the event the first proposition fails to receive the necessary two-thirds vote, at the general election, November, 1912, requiring only a majority to carry. The people have 13 years to pay for the 3 1/2 million dollar capitol and 30 years to pay for the five million dollar capitol—the rate of interest and taxation in each instance being the same."
"The class in history may be excused and the class in arithmetic will stand up."
"John may tell us what the maximum cost of the 3 1/2 million dollar proposition will be to the people, allowing for an average increase in the taxable wealth of the state, the rate of interest being 3 1/2 per cent, and the tax rate 2 cents on the \$100 assessed valuation."
"If the state continues to increase in wealth during this decade as it did during the past, the principal and interest should be liquidated in ten annual payments, or at a maximum cost of five million dollars—principal and interest."
"Now, John, figuring on the same basis, what would be the maximum cost of the five million dollar proposition?"
"It taking so much more of the annual revenue raised by the 2 cent tax levy to discharge the interest, and the amount being a million and a half larger, it would require, approximately, seventeen years to liquidate principal and interest, or a total cost of over eight million dollars."
"How much more would the five million dollar proposition, to be voted upon November, 1912, cost the taxpayers of Missouri than the 3 1/2 million dollar proposition to be voted upon at the special election August 1, 1911?"
"Three million dollars—a million and a half more in principal and a million and a half more in interest."
"Take the citizen who has \$3,000 worth of property, assessed at \$1,000, how much state capitol tax would he pay under each proposition?"
"Under the 3 1/2 million dollar plan he would pay 20 cents a year for 10 years, or a total of \$2.00; under the five million dollar plan he would pay 20 cents each year for 17 years, or a total of \$3.40—the second plan costing him 70 per cent more than the first plan."
"What then should the citizen do who wants to save \$3,000,000 to the state and 70 per cent of his new capitol tax?"
"Take off his coat and get out and work for the 3 1/2 million dollar proposition to be voted upon August 1."
Miss Mabel Butts of Hamburg, Ia., is the guest of Misses Margaret and Elizabeth Cook.

"Well, I have come to call on your father and ask him for your hand."
"Oh, I am so glad!"
"Are you really glad, dearest?"
"I certainly am; you know I have been taking lessons in first aid to the injured."—Houston Post.

THE QUESTION OF COST.

The careful business man always counts the cost and estimates the benefits of every business enterprise. Applying this method to the proposition to rebuild the state capitol, to be voted on August 1, what do we find? The tax rate being 2 cents on the \$100 assessed valuation, the following table will give the cost to you:

| Assd. | Amt. | Probable | Possible |
|------------|-----------|-----------|-----------|
| Val. | Per Year. | 10 Years. | 13 Years. |
| \$100..... | \$0.02 | \$0.20 | \$0.26 |
| 500..... | .10 | 1.00 | 1.30 |
| 1,000..... | .20 | 2.00 | 2.60 |
| 2,000..... | .40 | 4.00 | 5.20 |
| 4,000..... | .80 | 8.00 | 10.40 |

When you consider that your property is only assessed at one-third of its value, you can see that the probable total cost to you will be very small, while the limit of the possible cost is not burdensome at all. A man worth \$25,000 will not have to pay more than \$1.60 capitol tax per year, while the man whose assessment foots up \$1,000 is only out 20 cents per year, the price of a couple of good cigars.

What about the benefits? The new capitol provides rooms for the state offices; a meeting place for the legislature; safe fire-proof vaults for the records of the state; and a building that is your capitol home in which you have an interest and to which you can point with patriotic pride. The adoption of the proposition by a large two-thirds majority would advertise the state most favorably abroad, stamp us as a live, progressive people, attract the attention of home-seekers and give a general impetus to every business interest.

The cost is small; the benefits are great. It's a wise investment; lend your influence to the end that it may be made August 1st.

Boys of All Religions.

Many queries have been received by the leaders of the Boy Scouts as to what part the organization takes in religious training of the boys. In answer to those questions the following official statement has been issued by the organization:

"The Boy Scouts of America maintain that no boy can grow into the best kind of citizenship without recognizing his obligation to God. The first part of the Boy Scout's oath or pledge is there (I promise on my honor to do my best to honor my God

and my country). The recognition of God as the ruling and leading power in the universe, and the grateful acknowledgment of his favors and blessings is necessary to the best type of citizenship and is a wholesome thing in the education of the growing boy. No matter what the boy may be—Catholic, or Protestant, or Jew, this fundamental need of good citizenship should be kept before him. The Boy Scouts of America therefore recognize the religious element in the training of a boy, but is absolutely non-sectarian in its attitude toward that religious training. Its policy is that the organization or institution with which the Boy Scout is connected shall give definite attention to his religious life.

"If he be a Catholic Boy Scout, the Catholic church of which he is a member is the best channel for his training. If he be a Hebrew boy, then the synagogue will train him in the faith of his fathers. If he be a Protestant, no matter to what denomination of

Protestantism he may belong, the church of which he is an adherent or a member should be the proper organization to give him an education in the things that pertain to his allegiance to God. The Boy Scouts of America, then, while recognizing the fact that the boy should be taught the things that pertain to religion, insists upon the boy's religious life being stimulated and fostered by the institution with which he is connected. Of course, it is a fundamental principle of the Boy Scouts of America to insist on clean, capable leadership in its scout masters, and the influence of the leader on the Boy Scout should be of a distinctly helpful character."

A Charming Woman

Is one who is lovely in face, form, mind and temper. But it's hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver, and Kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c at the Orear-Henry Drug company.

MASSES VIEW REGAL PAGEANT

King and Queen Show Selves
to Less Favored Classes.

SUBJECTS SHOUT GREETINGS.

Every Uniform in the Empire Is Represented in Brilliant Cavalry Escort. Function Is More Elaborate Than Coronation Procession.

London, June 24.—King George and Queen Mary showed themselves to the masses as distinct from the more favored classes who were able to obtain access to the circumscribed area of the coronation pageant.

The procession was on an even grander scale than that of the coronation. The route was more extended, including a circuit of some of the most populous districts of the capital. The crowds that looked on were correspondingly greater and their majesties were accompanied by a large escort.

Between lines of cheering thousands the royal party made stately progress from Buckingham palace by way of Constitution Hill, Piccadilly, Trafalgar square, through the city, over London bridge, by Borough road and Westminster bridge, thus making a complete circle.

The pageant included four full squadrons of cavalry, representing all branches of that arm of the service, life guards, dragoons, hussars and lancers, each accompanied by its own band and a section of horse artillery.

These were followed by all the naval and military aides de camp on duty, the war office staff, deputations of foreign officers, the royal suite, the members of the royal family and the foreign princes and the colonial Indian escorts, who immediately preceded the state carriage.

In the royal equipage with the king and queen rode Field Marshal Kitchener and the bearer of the royal standard. The royal escort brought up the rear.

Seats for many thousands had been erected along this long route and the progress of the king and queen was indeed a royal one. Everywhere they received an uproarious welcome from the visitors in the hotels, from the stands of Piccadilly, Trafalgar square and the Strand, from the business men of London proper, who had brought their wives and children to the city for this day and again from their majesties' humbler subjects south of the river.

HOPKINS TAKES THE STAND

Senator Defeated by Lorimer Heard Many Rumors of Bribery.

Washington, June 24.—Although former Senator Albert J. Hopkins on the day Senator Lorimer was elected to the senate heard many rumors of the use of money in accomplishing that result, he said he was unable to "put his finger" on any corruption. Mr. Hopkins testified before the senate committee investigating the Lorimer election.

Pressed to tell the committee whether he had any reason to believe that any of the Republicans who deserted him for Senator Lorimer had done so because of improper influences, the witness declined to answer. "I don't think I ought to say," he declared. "It is only my belief."

NO CHANGE IN RECIPROCITY

Twelve Democratic Senators Willing to Turn Down All Amendments.

Washington, June 24.—A declaration for straight reciprocity at an informal conference of twelve Democratic senators willing to vote down all amendments to the bill; an amendment by Senator Bailey adding to the reciprocity measure all the house free list provisions except meats and grain products; a unanimous decision of the senate to vote Monday on the Root amendment to the wood pulp and paper schedule—these were features in the reciprocity fight. But there were no speeches in the senate and activity was confined to the office rooms and cloak rooms, where reciprocity was the chief topic.

Jones and Jones Bankrupt.

Kansas City, June 24.—Petitions in voluntary bankruptcy were filed in the United States district court here by Lawrence M. Jones and J. Logan Jones, former heads of the Jones Dry Goods company of this city. Their liabilities are estimated at \$750,000 and their assets at about \$20,000.

More Assessments Refused.

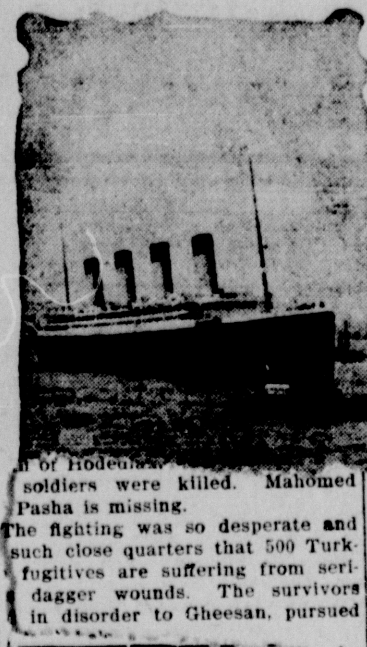

Buffalo, N. Y., June 24.—The movement to have this year's camp of the Modern Woodmen of America increase the number of yearly assessments from ten to twelve was defeated, the entire question of rates being referred to a special session to be held at Chicago next January.

Prefers Death to Being Arrested.

Deadwood, S. D., June 24.—While the sheriff at Belle Fourche was waiting for him with a warrant, charging embezzlement, Olin C. Hamelster, aged twenty-seven, cashier of the Northwest State bank at Newell, ended his life by shooting at his room in a local hotel.

MORMONS IN FULL CONTROL OF SUGAR Vice President Cutler Tells of Utah-Idaho Company.

Washington, June 24.—Henry O. Havemeyer, during all his connection with the Utah-Idaho Sugar company, of which Joseph F. Smith, head of the Mormon church, is president, never named or suggested a director or officer of that corporation, declared Vice President Thomas R. Cutler of that company before the house sugar trust committee of inquiry.

Mr. Cutler testified that Havemeyer, who had acquired interests in several of the original Mormon companies, at first objected to their consolidation into the Utah-Idaho company.

"Some of the stockholders feared that Mr. Havemeyer and the American Sugar Refining company sought to get control. For this reason an agreement was drawn up, which Mr. Havemeyer was asked to sign, providing that the original stockholders should name three directors, the eastern interests three, and these six a seventh. Mr. Havemeyer agreed to the proposal. I suggested several names, and he accepted them, so that I really named the six directors, all western people."

"I asked Mr. Havemeyer next about the seventh man, or who should be president. I told him that, if agreeable to him, we would very much desire that the president of the Mormon church be president of the company. 'All right, Mr. Cutler,' Mr. Havemeyer at once replied. 'That is all right, just the thing.' President Smith was named president of the company, and Mr. Havemeyer never afterward suggested an officer or director."

COMETS WIN GAME

OSWALT, IN FINE FORM, PITCHED THE LOCALS TO VICTORY.

3 AGAIN TIED FOR SECOND

Clarinda Won Yesterday, as Did Also Nebraska City—Auburn Here on Sunday.

Oh, it was sad, say, sad for Johnson. His meek and lowly slaves, the Comets, refused to serve him any longer, and stung him hard for ten safe bingles. To "Osy" belongs the praise. He certainly had his benders working, whiffing thirteen of those sturdy Oaks. And then to cinch matters he poled a three-bagger into right in the seventh, tying the score ahead of him and coming in on Sackett's triple for the first of the majority runs. The Oaks touched Oswalt seven times, but they were largely at distant intervals.

Sackett and Wintz started the bruising in the first with singles, but a neat double from Coppess to Atkins to Denison applied the brakes and stopped the show. A two-bagger by Castle and a pass for Coppess started Shenandoah on the rounds in the second, but Osy twisted his benders over the pan for the necessary two outs. Registering was started by the locals in the third. With two down Sackett binged to right and was advanced to third when Atkins missed Black's grounder. Shenandoah then tried her trick of Thursday's game, trying to fool the runner on third by throwing to second. It failed as before, and Sackett came in home, leaving Black safe on second. Black stole third, but failed to tally when Wintz was cut off at first.

The knot came in the fifth. McKee sent a double into left field and Denison succeeded in getting hit again. McKee was run ragged trying to reach third, and was tagged for the first out. Johnson singled and Wintz dropped Atkins' fly, stuffing the corners. Simmons grounded to Walsh, who fumbled, failing to get the man at the plate, but catching Simmons at first. Hagerty drew a pass, once more filling the passes, and Wells came to the bat. It looked bad, and a groan went up from the crowd when he hit a screaming grounder toward the second sack. Bulger was playing well down toward first and Sackett was over toward third. The hole was big, but Sackett opened his clutch, threw in on high and at the last moment stabbed the pill and shot it to first just in time to get the decision.

The seventh rolled around with the knot still holding, and Oswalt had slaughtered two, when Simmons struck the sphere into the right field ditch for the complete circuit. Oswalt chose Hagerty for the third victim and closed the gates.

And now comes the sad part. Moore stuck on first when Johnson made a wild heave to Denison. Griffin sacrificed and then Oswalt struck the ball down by the well in center field. It was the only one which got past Hagerty. Sackett followed with a three-bagger to right and scored on Black's grounder to first. Wintz singled to right and Cook popped one up over Johnson which was allowed to hit the dirt unscathed, and the final tally was pushed over. Walsh filed to Coppess for the final.

It was one, two, three for Shenandoah in the eighth, and one, two, a base on balls, and three for the Comets.

doah in the eighth, and one, two, a base on balls, and three for the Comets.

Two clean singles right off the bat started the Oaks around in the ninth, but Johnson filed to Cook and Oswalt broke the backs of Atkins and Simmons with his twisters, and the contest was over.

Notes.
And Johnson lost his smile. Sackett played the hog with the batting averages. Four times up and four hits.

Moore, the new first sacker, played a good game. His only hard chance was too hot to handle. Sage was a little off again Friday. He robbed Moore of a hit inside the left field flag, which would have scored Walsh.

Can you find a closer race than that of the Minks? Dietz sat on the bench Friday and got a good rest. Black filled his place and caught a good game.

SHOPPERS WILL HAVE TO BE MORE PROMPT

Shoppers will hereafter have to be more prompt in buying from the department stores in the city on account of the new 9-hour labor law for women, which went into effect last Monday. For instance, the dry goods stores will close promptly on week days at 6 o'clock, and on Saturday nights at 9 o'clock.

The Alderman dry goods store commenced Saturday working one-half of their clerks from 8 to 10 o'clock in the morning and the others from 10 to 12 o'clock. This plan will be carried out only on Saturdays. Two hours being taken off, they can work the rest of the day until 9 o'clock, making the nine hours. The other stores affected by this law will probably adopt the same plan.

The new law does not apply to employees in restaurants and hotels.

GIVES REASON FOR NOT SIGNING IT

Prosecuting Attorney Wright, in speaking about not signing the bill of exceptions in the Hez Rasco case, said that his reason for not doing it was that the statement therein relative to the applause at the close of M. E. Ford's argument was not consistent with the facts. The views of Prosecuting Attorney Wright and Judge Ellison as to the nature and extent of the applause are identical.

Met Sister-in-Law Here.

Mrs. Malina Bryant of Burlington Junction came to Maryville Saturday for a few days' visit at the home of her daughter, Mrs. J. T. Mrs. McJinney is on her way to Springfield, Mo., to visit her son, Elmer E. McJinney, editor of the Springfield Republican. Mrs. Bryant was accompanied to Maryville Saturday by her granddaughter, Mrs. Charles Awalt of St. Joseph, who is visiting her parents, Mr. and Mrs. Linville. Mr. Awalt will arrive Saturday night.

Will Go Back to Switzerland.

Rev. Mother John and Sister Lawrence of St. Benedictine convent at Clyde were in the city Saturday on business. Mother John was here to making necessary arrangements to send a student of her school to his home at Lucerne, Switzerland. She adopted the boy, whose name is Carl Schilbknecht, four years ago, and intended to educate him, but his health has failed and physicians say that he cannot recover. It is expected that he will be started on his journey Monday, July 2.

NICK CRIDER DEAD

PASSED AWAY SATURDAY AFTER A THREE YEARS' ILLNESS.

BORN IN SWITZERLAND

Came to Maryville Thirty-Three Years Ago—Funeral Services to Be Held Sunday.

Nicholas H. Crider, a well known old resident of this city, died at his home, on North Mulberry street, Saturday morning at 5 o'clock, after a three years' illness of tuberculosis. Mr. Crider had been confined to his home since last Christmas.

The funeral services will be held at his late home, where his daughter, Mrs. N. M. Craig, also resided, at 2:30 o'clock Sunday afternoon, conducted by Rev. L. O. Bricker of the First Christian church.

Mr. Crider was a native of Bern, Switzerland, where he was born, April 15, 1834. He was united with the Lutheran church in his native town, and throughout his life he held to the faith of that church. When a small child he came with his parents to New Philadelphia, O., where he lived ten years. In 1856 he moved to Brookline, Ia., where he lived fourteen years, and then to Atlantic, Ia., where he resided a short time. While living at Brookline he married Miss Sarah Lee, whose death occurred in Maryville, December 29, 1910. Mr. Crider and his family moved to Maryville thirty-three years ago, which has been their home ever since.

Three children were born to them, a son and two daughters. The son died in childhood. The daughters reside in Maryville and are Mrs. N. M. Craig, who lives at the old family home, on North Mulberry street, and Mrs. J. H. Schaub, living on West Seventh street. Mr. Crider worked in Maryville for many years as a painter and paper-hanger. He was an honest, conscientious workman, and he made and held many friends because of these qualities. He is also survived by seven grandchildren.

Charles C. Young of Maryville has recently been given the contract with the state of Iowa for building a reinforced concrete fireproof building at Clarinda, Ia., for the state hospital. Mr. Young has been at Creston several weeks and has several large contracts for buildings. For the Clarinda building Frank and Otis Woodard of this city will do the carpenter work.

SHORT ON LOGIC.

The Marysville Herald had the following editorial in this week's issue:

The Maryville Tribune rises to remark and repeat and reiterate that this great, grand and glorious country of ours has seen some fine prosperity with protective tariff laws attached to its tail. Therefore the Tribune urges that we retain the protective system. It might have gone on and suggested that many a hearty meal has been enjoyed, with flies descending the grub and the table—therefore let us adopt flies as the crowning glory of our fine eating, and the only real basis of a good square meal. And it also could have gone and said that Maryville has prospered wonderfully since the dogs that infest the town have become so numerous and swarmed the town streets and alleys in so insistent a way—therefore keep up the multiplying of dogs as the only true basis of any town's stable growth. The Tribune might have gone on and argued that Bill Smith or John Doe have been pickpocketed several times and since then have been very prosperous men, piling up wealth unto the astonishment of friends—therefore every man ought to have himself pickpocketed a few times so he could lay the foundations for real prosperity.

There have been many fields of good corn that have developed amid smartweeds, but the smartweeds did not produce the corn. There have been many specimens of robust manhood and robust happiness that have developed in a land of fleas, mosquitoes, cutworms, rattlesnakes and tariff taxes, but that does not argue or tend to argue that the manhood or the happiness were the product of any of these pests.

The Tribune might do well to scratch its head and let just a thought or two course through. This is a young country of unbounded resources. It can prosper under most any kind of regime. True it has had several panics during the last fifty years, all under the operation of protective tariff laws, but it has rallied soon from the effects of them, and has gone on its way all right. The simple fact that the protective system has not kept the country plunged in panic and distress all of the time, does not argue that it is a good thing or even a thing to be tolerated.

The Tribune thinks that it is conservative. The truth is it is ratty. It thinks it stands for the bulwarks. The truth of the matter is it is standing for the rotten boards of an old hull, which the American people at this time are determined to dump into the sewers. The American people have

reached the point where they must find out that you can't hurt a people by taking taxes off the commodities which they buy.

ATTENDED BOARD MEETING TO INVESTIGATE

W. C. Pierce, a member of the board of managers of state hospital No. 2, attended a meeting of the board held in St. Joseph Friday to investigate the causes of the death of a Greek patient, who died at the state hospital No. 2 Wednesday. The coroner's jury found that natural causes brought on his death instead of bruises or injuries sustained from the attacks of the attendants, but the board of managers fired the two attendants. They are not considered, by the board, as responsible for the patient's death, but they erred in striking the Greek, even if they only slapped his face.

LONDON TO ST. LOUIS SUNDAY NIGHT

Director P. O. Landon of the Maryville Conservatory of Music will leave Sunday night for St. Louis, where, as president, he will preside over the Missouri State Music Teachers' association, which convenes in that city Tuesday morning.

The outlook at present promises a larger attendance than any state meeting in ten years.

Harry Burnell Schuler of the Trenton conservatory is secretary-treasurer of the state convention, and Mr. Quarles of St. Louis, who gave a pipe organ recital at the First M. E. church two weeks ago, is chairman of the program committee.

Mr. Edwin Kroeger and Mr. Sacks of St. Louis, both of whom have appeared in recitals in Maryville, are prominent members of the association.

ITS UP TO MISSOURIANS.

The homeseekers in our sister states know that Missouri's capitol was destroyed by lightning last February, and they are watching to see what Missourians are going to do about building a new one. Send them the news on August 1st that Missouri is a live, progressive state, keeping step with the band wagon of progress, and they will swarm over the border looking for homes. Confirm the opinion of our enemies that Missouri is a "Moss-back State" by voting down the capitol rebuilding proposition, and they'll ride through Missouri to Oklahoma, Texas and Arkansas. It's up to Missourians.

HOW TO SAVE \$3,000,000.

The taxpayer should not lose sight of the fact that the \$5,000,000 capitol proposition, carrying with it the added burden of \$1,500,000, only requires a bare majority to carry it at the November election, 1912, while the three and one-half million dollar proposition, representing a saving over the five million dollar plan of \$1,500,000 in principal and \$1,500,000 in interest, requires two-thirds majority to carry August 1. Get busy, boys, and let's save this three millions by putting the necessary two-thirds into the ballot box at the special election.

THE SHORT AND LONG HAUL.

Remember, boys, that the tax rate is just the same in the five million and three and one-half million new capitol proposition. The question is, do you prefer to pay a state capitol tax of 2 cents on the \$100 assessed valuation for a long time or a short time? If you prefer the short tax period, get into the fight to carry the smaller bond issue at the special August election. It will take two-thirds of the votes cast to do it, but we can find them.

GOLF IN THE SOUTH.

The Game Was Played in Charleston as Early as 1788.

Golf was played in Charleston as far back as 1788. In the City Gazette or Daily Advertiser of Sept. 27, 1791, appears the following notice:

"Anniversary of the South Carolina Golf club will be held at Williams coffee house on Thursday, 28th inst., when members are requested to attend at 2 o'clock precisely, that the business of the club may be transacted before dinner."

For several years following may be found calls for the anniversary meetings to be held at "the clubhouse on Charleston's green," a tract of land south of Boundary (now Calhoun) street, between the present Coming and Rutledge streets.

The fact that it was the anniversary meeting in 1791 would show that the club had been organized before that date, but unfortunately the file of newspapers in the Charleston library is not complete for some years just prior, and one finds no earlier notices of meetings or mention of the club. But in the same journal of Sept. 18, 1788, there is an advertisement of an auction sale of a farm on Charleston Neck, between three and four miles from the city, adjoining Cochran's shipyard creek, which, after describing the different items of property included in the sale, states that "there is lately erected that pleasing and genteel amusement, the golf bean." This certainly indicates that golf was one of the local amusements of that day.

The word "baan" (English-Dutch dictionary) means path, walk, way, etc., and golf, according to the Encyclopaedia Britannica, is derived from the Dutch "koif," a club, and the game is doubtless of Dutch origin and introduced into Scotland about 1450.—Charleston News and Courier.

RIGHT ON THE JOB.

He Didn't Believe in Letting the Place Seek the Man.

A little story of success starting with the use of want ads. is contained in Business and the Bookkeeper. A Minneapolis manufacturer explains his liking for men who, even if they lack certain important qualities, have "initiative and originality."

The manufacturer, who at the time of which he spoke was just out of college, in Chicago and out of work, answered an advertisement offering a position, addressing, as instructed, "T24." He inclosed his reply in a large red envelope that could be seen and recognized at a distance. He was in the newspaper office early the following morning. In one of the boxes in which replies to advertisements were kept he saw his red envelope. He waited three hours until the letter in that box was given to a man calling for them. He followed the man to a west side factory. As the messenger laid the bunch of letters on the manager's desk the job hunter was standing by it.

"I'm ready to go to work," he said. The manager's reply was not "elegant," but in addition to being exclamatory it was interrogatory. How did he manage to present himself on the scene? The young man in need of the job pointed to his red envelope. The manager looked at it and looked at him. Then he turned to the messenger. "Find out who this young fellow is and put him to work," he said.

Discretion the Better Part.

Mr. Callahan had received a long tongue lashing from Mr. Hennessey, and his friends were urging on him the wisdom of vindicating his honor with his fists.

"But he's more than me equal," said Mr. Callahan dubiously, "and look at the size of 'm."

"Sure as you don't want folks to be sayin' 'Terry Callahan is a coward,'" demanded a reproachful friend. "Well, I dunno," and Mr. Callahan gazed mournfully about him. "I'd rather that to ave em sayin' down after termorrow. 'How natural Terry looks!'" —Metropolitan Magazine.

How a Hindu Uses Clocks.

The Hindu places a clock in his showrooms not because he ever desires to know what the hour is, but because a clock is a foreign curiosity. Instead, therefore, of contending himself with one good clock he will perhaps have a dozen in one room. They are signs of his wealth, but they do not add to his comfort, for he is so indifferent to time that he measures it by the number of bamboo lengths the sun has traveled above the horizon.

Too Many Numbers.

"You have forgotten your name?" said the kind policeman.

"Yes," said the victim of aphasia. "You see, I overtaxed my memory trying to remember my name and my house number and my telephone number and my automobile number and the number of my dog's license all at once." —Washington Star.

He Lost Out.

"Yea, sir, he wuz afraid o' de banks bustin' on him, an' so he buried his money!"

"Has he got it yet?"

"No; he forgot to blaze the tree whar it wuz, an' de man who owned de land put up a sign, 'No Trespassing on These Grounds.'" —Pittsburg Dispatch.

"And the result?"

"Same old aviation news a few start and all of a sudden a fearful bump." —Exchange.

The fighting was so desperate and at such close quarters that 500 Turkish fugitives are suffering from serious dagger wounds. The survivors fled in disorder to Gheesan, pursued by the rebels.

The Turkish gunboat Sutebbe, intending to shell the Arabs, shelled Gheesan instead, killing or wounding several hundred of the soldiers.

The rebels captured four big guns, two Maxim, 2,000 rifles and a quantity of ammunition and ultimately retired.

14 INDICTED IN LUMBER CASE

Conspiracy to Blacklist and Restrict Trade Charged.

WHOLESALESAERS ARE BOYCOTTED

Secretaries of Retail Dealers' Association Indicted by Federal Grand Jury at Chicago—Put Ban on Wholesalers Who Sell Direct to Consumer.

Chicago, June 24.—The secretaries of fourteen retail lumber dealers' associations, comprising the lumber secretaries' bureau of information and representing dealers' organizations from Pennsylvania to the Pacific, were indicted by a special United States grand jury for alleged violation of the Sherman anti-trust act. Three secretaries in the organization received immunity for testifying before the grand jury.

Each indictment is in two counts. The first charges conspiracy among the retail lumber dealers to interfere with and restrain trade between manufacturers and wholesalers and the consumers. The second count charges a conspiracy to suppress and eliminate the competition that should exist between the wholesalers and the retailers and the consumers.

List of Defendants.

The indicted were: Arthur J. Holmes of Detroit, secretary Michigan Lumber Dealers' association, and editor of a trade paper, the Scout.

George P. Sweet, secretary of the Michigan association.

Willard G. Hollis of Minneapolis, secretary of the Northwestern Lumbermen's association.

Harry A. Gorsuch of Kansas City, secretary of the Southwestern Lumber association.

Bert Critchfield of Lincoln, secretary of the Nebraska Lumber Dealers' association.

E. E. Hall, also secretary Nebraska association.

Harry S. Scarce of Mooresville, secretary of the Indiana Lumber Dealers' association.

H. H. Hemenway of Denver, secretary Colorado and Wyoming association.

Louis Hellman, also secretary of the Colorado and Wyoming association.

H. H. Adams of Chillicothe, secretary of the Union Association of Lumber Dealers' and of the Ohio Association of Retail Lumber Dealers.

B. N. Hayward of Columbus, also secretary of the Ohio association.

A. L. Porter of Spokane, secretary of the Western Retail Lumbermen's association.

R. P. Bradford of Union City, Tenn., secretary of the Retail Lumber Dealers' association.

A. C. Richter of Pittsburg, secretary Lumber Dealers' association of Pennsylvania.

Three Given Immunity.

The three who received immunity for testifying were:

Paul Lachmund of Milwaukee, secretary Wisconsin association.

George W. Hotchkiss of Chicago, secretary Illinois Lumber and Builders' Supply Dealers' association and secretary of the secretaries' bureau.

George Wilson Jones, secretary of the Illinois association.

The lumber secretaries' bureau of information, it was learned by the grand jury, was incorporated in Illinois in 1905. Its membership was confined to secretaries of retail lumber dealers' associations in all parts of the country.

Aim of Conspiracy.

The aim of the alleged conspiracy, according to the indictments, was not to maintain prices nor to prevent competition between retail dealers, but to put a complete stop to the direct sale of lumber by wholesalers to consumers. Violation of the Sherman act was found, not in any trust of capital, nor anything approaching a trust, as the term has been applied in recent litigation. Instead, according to the government, it was a so called "trust of power," alleged to have been manifested in the secretaries of the retailers' organizations. That power, it is charged, was exercised by means of an alleged blacklist said to have been maintained by the secretaries' bureau. This so called blacklist, the government charges, contained the names of such wholesalers and manufacturers as violated the retailers' rule forbidding the direct sale to the consumer. Documentary evidence examined by the grand jury showed the names of over 100 large wholesalers in various parts of the country who were said to have been on the so called blacklist.

In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.

THOUGHTS ON MARRIAGE.

Out here, where quick divorces
Are served with dinner courses,
A woman learns to train a man as she
would have him be;
Or else she seeks the nearest court
For separation and support,
And marriage license coupons are at-
tached to each decree.

Somewhat there doesn't seem to be
any "heart interest" in that sort of a
love song. Let us turn to the pathetic
poem of painful parting. Of course
the setting and sentiment of most of
them are wholly obsolete. The modern
parting from a ladylove is fre-
quently followed by a separation from
a large lump of collateral as a balm
for wounded affections. Why not re-
cognize the matrimonial incompatibility
of the high-flier and the joy rider in
appropriate verse?

FRITZ AND I.

NEW CAPITOL CHART CLASS.

"The class in history will come forward."

"William may tell us when, where and by whom the capital of Missouri was located."

"In 1820, at Jefferson City by the government of the United States?"

"What are the express terms of the act designating Jefferson City as the capital?"

"The grant of land was given for the purpose of locating the 'permanent seat of government' at that place, and the land was sold to citizens for money to erect public buildings upon that expressed condition."

"When was the capitol building erected?"

"The main building was erected in 1837, the wings in 1887. This building was struck by lightning and burned on Sunday, February 5, 1911, and Missouri is now without a capitol, her state offices being homeless."

"What steps have been taken looking towards the rebuilding of the capitol at the permanent seat of government?"

"The 46th General Assembly submitted two propositions, namely: a plan for additional capitol grounds and rebuilding the capitol, to cost not less than 3 1/2 million dollars, and a plan calling for additional capitol grounds and rebuilding the capitol, not to exceed five million dollars—the first plan to be submitted at a special election August 1, 1911, and the second plan to be submitted, in the event the first proposition fails to receive the necessary two-thirds vote, at the general election, November, 1912, requiring only a majority to carry. The people have 13 years to pay for the 3 1/2 million dollar capitol and 30 years to pay for the five million dollar capitol—the rate of interest and taxation in each instance being the same."

"The class in history may be excused and the class in arithmetic will stand up."

"John may tell us what the maximum cost of the 3 1/2 million dollar proposition will be to the people, allowing for an average increase in the taxable wealth of the state, the rate of interest being 3 1/2 per cent, and the tax rate 2 cents on the \$100 assessed valuation."

"If the state continues to increase in wealth during this decade as it did during the past, the principal and interest should be liquidated in ten annual payments, or at a maximum cost of five million dollars—principal and interest."

"Now, John, figuring on the same basis, what would be the maximum cost of the five million dollar proposition?"

"It taking so much more of the annual revenue raised by the 3 cent tax levy to discharge the interest, and the amount being a million and a half larger, it would require, approximately, seventeen years to liquidate principal and interest, or a total cost of over eight million dollars."

"How much more would the five million dollar proposition, to be voted upon November, 1912, cost the taxpayers of Missouri than the 3 1/2 million dollar proposition to be voted upon at the special election August 1, 1911?"

"Three million dollars—a million and a half more in principal and a million and a half more in interest."

"Take the citizen who has \$3,000 worth of property, assessed at \$1,000, how much state capitol tax would he pay under each proposition?"

"Under the 3 1/2 million dollar plan he would pay 20 cents a year for 10 years, or a total of \$2.00; under the five million dollar plan he would pay 20 cents each year for 17 years, or a total of \$3.40—the second plan costing him 70 per cent more than the first plan."

"What then should the citizen do who wants to save \$3,000,000 to the state and 70 per cent of his new capitol tax?"

"Take off his coat and get out and work for the 3 1/2 million dollar proposition to be voted upon August 1."

Miss Mabel Butts of Hamburg, Ia., is the guest of Misses Margaret and Elizabeth Cook.

"Well, I have come to call on your father and ask him for your hand."

"Oh, I am so glad!"

"Are you really glad, dearest?"

"I certainly am; you know I have been taking lessons in first aid to the injured."—Houston Post.

Boys of All Religions.
Many queries have been received by the leaders of the Boy Scouts as to what part the organization takes in religious training of the boys. In answer to those questions the following official statement has been issued by the organization:

"The Boy Scouts of America maintain that no boy can grow into the best kind of citizenship without recognizing his obligation to God. The first part of the Boy Scout's oath or pledge is there (I promise on my honor to do my best to honor my God

THE QUESTION OF COST.
The careful business man always counts the cost and estimates the benefits of every business enterprise. Applying this method to the proposition to rebuild the state capitol, to be voted on August 1, what do we find? The tax rate being 2 cents on the \$100 assessed valuation, the following table will give the cost to you:

Assd. Amt. Probable Possible
Val. Per Year. 10 Years. 13 Years.
\$100...\$0.02 \$0.20 \$0.26
500... .10 1.00 1.30
1,000... .20 2.00 2.60
2,000... .40 4.00 5.20
4,000... .80 8.00 10.40

When you consider that your property is only assessed at one-third of its value, you can see that the probable total cost to you will be very small, while the limit of the possible cost is not burdensome at all. A man worth \$25,000 will not have to pay more than \$1.60 capitol tax per year, while the man whose assessment foots up \$1,000 is only out 20 cents per year, the price of a couple of good cigars.

What about the benefits? The new capitol provides rooms for the state offices; a meeting place for the legislature; safe fire-proof vaults for the records of the state; and a building that is your capitol home in which you have an interest and to which you can point with patriotic pride. The adoption of the proposition by a large two-thirds majority would advertise the state most favorably abroad, stamp us as a live, progressive people, attract the attention of home-seekers and give a general impetus to every business interest.

The cost is small; the benefits are great. It's a wise investment; lend your influence to the end that it may be made August 1st.

Miss Brennan was in the millinery business in Maryville a few years ago, her store room being brick located in a portion of the Ream hotel.

and my country). The recognition of God as the ruling and leading power in the universe, and the grateful acknowledgment of his favors and blessings is necessary to the best type of citizenship and is a wholesome thing in the education of the growing boy. No matter what the boy may be—Catholic, or Protestant, or Jew, this fundamental need of good citizenship should be kept before him. The Boy Scouts of America therefore recognize the religious element in the training of a boy, but is absolutely non-sectarian in its attitude toward that religious training. Its policy is that the organization or institution with which the Boy Scout is connected shall give definite attention to his religious life. If he be a Catholic Boy Scout, the Catholic church of which he is a member is the best channel for his training. If he be a Hebrew boy, then the synagogue will train him in the faith of his fathers. If he be a Protestant, no matter to what denomination of

Protestantism he may belong, the church of which he is an adherent or a member should be the proper organization to give him an education in the things that pertain to his allegiance to God. The Boy Scouts of America, then, while recognizing the fact that the boy should be taught the things that pertain to religion, insists upon the boy's religious life being stimulated and fostered by the institution with which he is connected. Of course, it is a fundamental principle of the Boy Scouts of America to insist on clean, capable leadership in its scout masters, and the influence of the leader on the Boy Scout should be of a distinctly helpful character."

King and Queen Show Selves

SUBJECTS SHOUT GREETINGS.

Every Uniform in the Empire Is Represented in Brilliant Cavalry Escort. Function Is More Elaborate Than Coronation Procession.

London, June 24.—King George and Queen Mary showed themselves to the masses as distinct from the more favored classes who were able to obtain access to the circumscribed area of the coronation pageant.

The procession was on an even grander scale than that of the coronation. The route was more extended, including a circuit of some of the most populous districts of the capital. The crowds that looked on were correspondingly greater and their majesties were accompanied by a large escort.

Between lines of cheering thousands the royal party made stately progress from Buckingham palace by way of Constitution Hill, Piccadilly, Trafalgar square, through the city, over London bridge, by Borough road and Westminster bridge, thus making a complete circle.

The pageant included four full squadrons of cavalry, representing all branches of that arm of the service, life guards, dragoons, hussars and lancers, each accompanied by its own band and a section of horse artillery.

These were followed by all the naval and military aides de camp on duty, the war office staff, deputations of foreign officers, the royal suite, the members of the royal family and the foreign princes and the colonial Indian escorts, who immediately preceded the state carriage.

In the royal equipage with the king and queen rode Field Marshal Kitchener and the bearer of the royal standard. The royal escort brought up the rear.

Seats for many thousands had been erected along this long route and the progress of the king and queen was indeed a royal one. Everywhere they received an uproarious welcome from the visitors in the hotels, from the stands of Piccadilly, Trafalgar square and the Strand, from the business men of London proper, who had brought their wives and children to the city for this day and again from their majesties' humbler subjects south of the river.

HOPKINS TAKES THE STAND

Senator Defeated by Lorimer Heard
Many Rumors of Bribery.

Washington, June 24.—Although former Senator Albert J. Hopkins on the day Senator Lorimer was elected to the senate heard many rumors of the use of money in accomplishing that result he said he was unable to "put his finger" on any corruption. Mr. Hopkins testified before the senate committee investigating the Lorimer election.

Pressed to tell the committee whether he had any reason to believe that any of the Republicans who deserted him for Senator Lorimer had done so because of improper influences, the witness declined to answer.

"I don't think I ought to say," he declared. "It is only my belief."

NO CHANGE IN RECIPROCITY

Twelve Democratic Senators Willing
to Turn Down All Amendments.

Washington, June 24.—A declaration for straight reciprocity at an informal conference of twelve Democratic senators willing to vote down all amendments to the bill; an amendment by Senator Bailey adding to the reciprocity measure all the house free list provisions except meats and grain products; a unanimous decision of the senate to vote Monday on the Root amendment to the wool pulp and paper schedule—these were features in the reciprocity fight. But there were no speeches in the senate and activity was confined to the office rooms and cloak rooms, where reciprocity was the chief topic.

Jones and Jones Bankrupt.

Kansas City, June 24.—Petitions in voluntary bankruptcy were filed in the United States district court here by Lawrence M. Jones and J. Logan Jones, former heads of the Jones Dry Goods company of this city. Their liabilities are estimated at \$750,000 and their assets at about \$20,000.

More Assessments Refused.

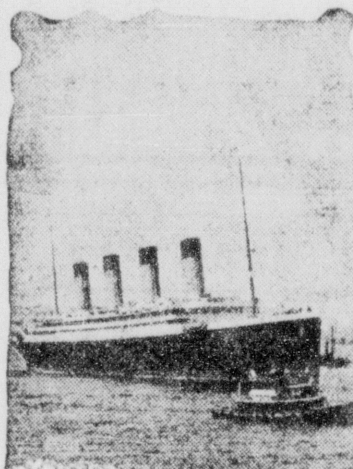

Buffalo, N. Y., June 24.—The movement to have this year's camp of the Modern Woodmen of America increase the number of yearly assessments from ten to twelve was defeated, the entire question of rates being referred to a special session to be held at Chicago next January.

Deadwood, S. D., June 24.—While the sheriff at Belle Fourche was waiting for him with a warrant, charging embezzlement, Olin C. Hameister, aged twenty-seven, cashier of the Northwest State bank at Newell, ended his life by shooting at his room in a local hotel.

MORMONS IN FULL CONTROL OF SUGAR

Vice President Cutler Tells of
Utah-Idaho Company.

Washington, June 24.—Henry O. Havemeyer, during all his connection with the Utah-Idaho Sugar company, of which Joseph F. Smith, head of the Mormon church, is president, never named or suggested a director or officer of that corporation, declared Vice President Thomas R. Cutler of that company before the house sugar trust committee of inquiry.

Mr. Cutler testified that Havemeyer, who had acquired interests in several of the original Mormon companies, at first objected to their consolidation into the Utah-Idaho company.

"Some of the stockholders feared that Mr. Havemeyer and the American Sugar Refining company sought to get control. For this reason an agreement was drawn up, which Mr. Havemeyer was asked to sign, providing that the original stockholders should name three directors, the eastern interests three, and these six a seventh."

"Mr. Havemeyer agreed to the proposal. I suggested several names, and he accepted them, so that I really named the six directors, all western people."

"I asked Mr. Havemeyer next about the seventh man, or who should be president. I told him that, if agreeable to him, we would very much desire that the president of the Mormon church be president of the company. 'All right, Mr. Cutler,' Mr. Havemeyer at once replied. 'That is all right, just the thing.' President Smith was named president of the company, and Mr. Havemeyer never afterward suggested an officer or director."

Many a Man Owes His Success to the Building

of a home because it has served as an anchor and kept him in a straight line and away, possibly, from the many "get rich quick" schemes which are so plentiful today and which so often mean riches only for the smooth tongued promoters thereof. By investing IN YOUR HOME TOWN you are dealing with values and people with whom you are acquainted—people who are interested in your welfare because your success means the success of others about you, and the more successful citizens a town can boast of the better place it will be. All the lumber we have in our yards was purchased with the view of giving our customers honest values, and when you decide to build we want to tell you more about our methods.
